September 17, 2010

Russell Golden Technical Director Financial Accounting Standards Board 401 Merritt 7, PO Box 5116 Norwalk, CT 06856-5116

Dear Mr. Golden:

As President & CEO of The Central National Bank of Alva, a banking institution in Alva, OK with \$250million in total assets, I am writing to express my opinions on specific provisions of the exposure draft.

I am strongly opposed to the portion of the proposal that requires all financial instruments - including loans - to be reported at fair value (market value) on the balance sheet.

Our bank does not sell our commercial loans. Basing our balance sheet on fair values leads readers of our financial statements to assume that we will sell the loans, which is not the case.

There is no active market for many of our loans, and estimating a market value makes no real sense.

The costs and resources that we will need to comply with this new requirement would be significant. This will require us to pay consultants and auditors to estimate market value.

For the reasons stated above, our bank respectfully requests that the fair value section of the exposure draft be dropped.

Sincerely,

580.327.1122 President & C.E.O. The Central National Bank of Alva
