Dear FASB Director, I am writing to encourage your continuing to allow for employee stock option programs similar to the one offered by my employer, Quad City Bank and Trust Company/QCR Holdings. This program has provided me with a personal investment in this company. I now feel personally vested in the business and how it performs. I take pride in my job and Quad City Bank and Trust as a whole. The program is also providing a means for long-term savings in what I believe is a strong investment - my community. Thank you for your time and consideration.
