Subject: Please DO NOT EXPENSE Stock Options!

To Whom It May Concern-

I am opposed to requiring that companies expense stock options.
I view this as an attack against the American Worker.

Employees should be given opportunities to participate in the ownership of the companies for which they work. Expensing stock options will deter companies from doing this and end up **hurting** the employees.

Please work to STOP the expensing of stock options. It robs employees and companies and will ultimately have a negative impact on the American economy.

Sincerely,
Jerry Bush
