

Subject: Objection to proposed rule change

Dear Madame & Sirs,

We oppose your proposed rule change that would require contractors to report their unfunded pension liability on their financial statements.

Some of the problems with our country's economy now are caused by the inability of small businesses to secure loans for expansion or just operation of their day to day business.

Your proposed rule change will make it worse.

Please don't enact more rules that restrict how small business operates in this country.

Sincerely,

Donald Schwister, CEO

Nancy Schulz
Bookkeeper/Secretary
