Dear Mr. Golden:

Thank you for the opportunity to comment on the exposure draft, "Accounting for Financial Instruments and Revisions to the Accounting for Derivative Instruments and Hedging Activities."

As President of Bank of Macks Creek, a banking institution in Macks Creek, MO with \$ 22.5 million in total assets, I am writing to express my opinions on specific provisions of the exposure draft.

I am strongly opposed to the portion of the proposal that requires all financial instruments - including loans - to be reported at fair value (market value) on the balance sheet.

Our bank has only 4 shareholders with the 90+% owned by our 1 bank holding company. This REQUIREMENT would add a tremendous additional burdeon we do not need in these difficult time.

Our bank does not sell our commercial loans. Basing our balance sheet on fair values leads readers of our financial statements to assume that we will sell the loans, which is not the case.

There is no active market for many of our loans, and estimating a market value makes no real sense.

The costs and resources that we will need to comply with this new requirement would be significant. This will require us to pay consultants and auditors to estimate market value.

For the reasons stated above, our bank respectfully requests that the fair value section of the exposure draft be dropped.

Sincerely,

5733635321
President/CEO

Bank of Macks Creek
