Dear Mr. Golden:

Thank you for the opportunity to comment on the exposure draft, "Accounting for Financial Instruments and Revisions to the Accounting for Derivative Instruments and Hedging Activities."

As President / CEO and Founder of Texas Advantage Community Bank, a banking institution in Alvin, Texas with \$78 million in total assets, I am writing to express my opinions on specific provisions of the exposure draft.

I am strongly opposed to the portion of the proposal that requires all financial instruments - including loans - to be reported at fair value (market value) on the balance sheet.

Marking all loans to market would cause our bank's capital to sway with fluctuations in the markets - even if the entire loan portfolio is performing. Instead of providing better information about our bank's health or its ability to pay dividends, the proposal would mask it.

Even if the banking regulators' Tier 1 capital excludes fair value fluctuations, we still will have to explain it to our investors, customers and depositors.

The costs and resources that we will need to comply with this new requirement would be significant. This will require us to pay consultants and auditors to estimate market value.

For the reasons stated above, our bank respectfully requests that the fair value section of the exposure draft be dropped.

Thank you for considering my comments.

Sincerely,

281-388-5200

President and CEO
Texas Advantage Community Bank
