**Re: Exposure Draft - Leases**

Dear Sir/Madam,

We are pleased to submit this letter on the International Accounting Standards Board's (IASB) and Financial Accounting Standards Board's (FASB) (collectively "the Boards") Exposure Drafts; Leases. We are submitting these comments on behalf of the undersigned investors and property sector analysts. As major investors into property and investment property companies (including REITs) we have a strong interest in ensuring that the reporting of financial information related to investment property is relevant and transparent.

**Exclusion for lessors of investment property reported at fair value**

We are fully supportive of the conclusion reached by the IASB to exclude from the proposed lease accounting standard companies that report investment property at fair value. Further, we support the FASB's examination of a standard under U.S. GAAP that would mirror International Accounting Standard No. 40, *Investment Property* (IAS 40). Such a standard would enable convergence of standards for accounting for investment property world-wide; and ensure relevant, comparable and transparent reporting by investment property companies globally.

The current IFRS for investment property accounting, IAS 40, is well supported by industry financial statement preparers reporting under IFRS and industry financial statement users who rely on those statements. It requires a property company to disclose the fair value of its property and reports full rental income in the profit and loss account. The full amount of rental income is fundamental to investors in assessing the performance and investment quality of investment property companies. Removing this metric pursuant to the proposed leases standard would represent a step backward in terms of investment property companies communicating effectively to investors, financial analysts and other financial statement consumers.

The investors identified below would be pleased to meet with the Boards or staff to discuss in more detail the views of users of the financial statements of investment property companies.

If you would like to discuss this matter with us, please contact either Gareth Lewis at [gareth.lewis@epra.com](mailto:gareth.lewis@epra.com) or George Yungmann at [gyungmann@nareit.com](mailto:gyungmann@nareit.com).

We thank the FASB and IASB for the opportunity to comment on the Boards' Exposure Drafts with respect to this very important project.

Respectfully submitted,

**Investment institutions**
