Dear Ms. Bielstein:

NAREIT commends the FASB’s efforts to continue to develop high-quality accounting standards that improve the transparency, usefulness and credibility of financial reporting. In particular, we support the efforts to harmonize U.S. standards and international accounting standards.
With respect to Issue 5 included in the ED, we noted that, in the February 27, 2006 Memorandum of Understanding between the FASB and IASB, the FASB has committed to include the examination of accounting for investment property in the context of the Fair Value Option project, thus affirming the bases for including investment property in Phase 2 of the project. NAREIT supports the Board's commitment to examine the accounting for investment property in the context of the Fair Value Option project, and we look forward to working constructively with the Board as it considers how to harmonize reporting of investment property between U.S. GAAP and IFRS.

Respectfully submitted,
