Russell Golden
Technical Director
Financial Accounting Standards Board
401 Merritt 7, PO Box 5116
Norwalk, CT 06856-5116

Dear Mr. Golden:

Thank you for the opportunity to comment on the exposure draft, "Accounting for Financial Instruments and Revisions to the Accounting for Derivative Instruments and Hedging Activities."

As President] of Moorhead State Bank, a banking institution in Moorhead, Iowa] with \$20M in total assets, I am writing to express my opinions on specific provisions of the exposure draft.

I. COMMENTS ON FAIR VALUE

I am strongly opposed to the portion of the proposal that requires all financial instruments - including loans - to be reported at fair value (market value) on the balance sheet.

Our bank does not sell our commercial loans. Basing our balance sheet on fair values leads readers of our financial statements to assume that we will sell the loans, which is not the case.

If there are issues with a borrower's ability to repay a loan, we work through the collection process with the borrower rather than sell the loan.

Even if we could easily obtain a market price, since the loan is just one part of the financial relationship that we have with the customer (multiple loans, investment and trust services, etc.), there is no financial incentive to sell.

Even if the banking regulators' Tier 1 capital excludes fair value fluctuations, we still will have to explain it to our investors, customers and depositors.

For the reasons stated above, our bank respectfully requests that the fair value section of the exposure draft be dropped.

II. COMMENTS ON LOAN IMPAIRMENT

I support the Board's efforts to revise the methodology to estimate loan

loss provisions. However, I have serious concerns about how such changes can be implemented by banks like mine.

I recommend that any final model be tested by banks my size in order to ensure that the model is solid and workable.

It is very important that any new processes are agreed upon and well understood by regulators, auditors, and bankers prior to finalizing the rules.

Changing the way interest income is recorded to the proposed method makes the accounting more confusing and subjects otherwise firm data to the volatility that comes naturally from the provisioning process. I recommend maintaining the current method.

Thank you for considering my comments.

Sincerely,

7128865252
President
Moorhead State Bank
