Dear Mr. Golden:

Thank you for the opportunity to comment on the exposure draft, "Accounting for Financial Instruments and Revisions to the Accounting for Derivative Instruments and Hedging Activities."

As CEO of First National Bank of Griffin, a banking institution in Griffin, Georgia with \$270 million in total assets, I am writing to express my opinions on specific provisions of the exposure draft.

#### I. COMMENTS ON FAIR VALUE

I am strongly opposed to the portion of the proposal that requires all financial instruments - including loans - to be reported at fair value (market value) on the balance sheet.

Our bank does not sell our commercial loans. Basing our balance sheet on fair values leads readers of our financial statements to assume that we will sell the loans, which is not the case.

There is no active market for many of our loans, and estimating a market value makes no real sense.

The costs and resources that we will need to comply with this new requirement would be significant. This will require us to pay consultants and auditors to estimate market value.

For the reasons stated above, our bank respectfully requests that the fair value section of the exposure draft be dropped.

#### II. COMMENTS ON LOAN IMPAIRMENT

I support the Board's efforts to revise the methodology to estimate loan loss provisions. However, I have serious concerns about how such changes can be implemented by banks like mine.

It is very important that any new processes are agreed upon and well understood by regulators, auditors, and bankers prior to finalizing the

rules.

Thank you for considering my comments.

Sincerely,

CEO  
First National Bank of Griffin, Georgia
